### **Response to Arguments**

1. Applicant's arguments with respect to claims 1-25 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

- a. Claims 1-4, 7, 9, 11-16, 18 and 20-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schwartz in view of Guzman and Netti. Schwartz discloses all of the limitations of the claimed invention except for the handle and member. Guzman teaches a handle 14 within the member and Netti teaches a member 37. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use a handle positioned within a member in order to stabilize a user's limb while utilizing the device.
2. Claims 7-8, 10, 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
